

ANNOUNCEMENT

Charles Taylor aviation (CTa) are pleased to announce the establishment of a dedicated aviation presence in the Middle East region.

In September 2008 Senior Surveyor and Adjuster Alwyn Roberts will transfer to Charles Taylor's existing office in Dubai.

The move is seen as a significant enhancement to the services we provide Insurers and their Clients in and around this progressive region.

Alwyn already has considerable experience of the territory having dealt with many complex and high profile Aviation claims throughout the Middle East region.

This initiative will mean CTa are ideally situated to provide a rapid Client facing response as required in a Market where service is the template of our success.

Full details will follow within the coming weeks but if any further information is required at this time, please contact:-
